Caspian
Water Innovation
Forum

Dear AMCHAM member!

The **2nd Caspian Water Innovation Forum** will be held on May 30, 2023 at Baku Marriott Boulevard Hotel by "Aqualink" LLC with support of the Ministry of Ecology and Natural Resources of Azerbaijan, "Azersu" OJSC and "Azerbaijan Melioration and Water Management" OJSC., and the with the main sponsorship of "AO Smith", "Nijhuis Saur Industries", "ARC Technology" companies.

Forum will be held with the motto "**Water for the future!**" and attract **26** leading companies from **15** countries operating in the field of efficient use of water, effective management of water resources and environmental protection, representatives of more than **300** local and foreign companies, including more than **60** international level professionals and relevant state participation of institutions and companies is envisaged.

This Forum will provide discussion and cooperation bringing together the world experience in water resources and waste water management, recycling, environmental impact assessment, demonstration of new technologies, public and private sector's innovations in the region, as well as create a **discussion platform** for advanced technologies, including the study and application of international experience, strengthening the close cooperation of the public and private sectors in this field.

The Forum will be held in panel format. **Panel I** will be devoted to the "Management of water resources and economy", **Panel II** "Waste water management, recycling and environmental effects", and **Panel III** "Innovation and effective solutions, measurement and control technologies". In the panels, discussions will be held with local and foreign experts as well as representatives of relevant state institutions.

AMCHAM members are welcomed to register **for free of charge participation** in the Forum with the **promo code WIF100** through the link www.wif.az/bilet_al.
